## 2 HAZARDS IDENTIFICATION

**Emergency Overview**

**Physical State:** Solid  
**Color:** Various  
**Odor:** Odorless

Low hazard for usual industrial or commercial handling by trained personnel. Under normal conditions of processing and use, exposure to the chemical constituents in this product is unlikely. All ingredients are tightly bound in a polymeric matrix that has a negligible vapor pressure so there is a low potential for inhalation or ingestion of ingredients.

**Potential Health Effects**

**Inhalation:** Dust may irritate throat and respiratory system and cause coughing. Fumes from burning this material may cause respiratory irritation with coughing, difficulty in breathing or shortness of breath.

**Eye Contact:** Dust may irritate the eyes. Decomposition products may cause eye irritation.

**Skin Contact:** Molten material will produce thermal burns.

**Ingestion:** No adverse effects due to ingestion are expected.

**Potential Physical / Chemical Effects:** Braid made of flame retardant polyethylene terephthalate (PET)
monofilaments. Phosphorus components in the PET give the flame a retardant effect.

**OSHA Regulatory Status:** When used for its intended purposes, this material is not classified as hazardous in accordance with OSHA 29 CFR 1910.1200.

**Environment:** The environmental hazard of the product is considered to be limited.

### 4 FIRST AID MEASURES

**Inhalation:** Move the exposed person to fresh air at once. Get medical attention if any discomfort continues.

**Eye Contact:** Dust in the eyes: Flush eyes thoroughly with water, taking care to rinse under eyelids. If irritation persists, continue flushing for 15 minutes, rinsing from time to time under eyelids. If discomfort continues, consult a physician.

**Skin Contact:** Wash contact areas with soap and water. If irritation occurs, get medical assistance.

**Ingestion:** Rinse mouth thoroughly. Drink a few glasses of water or milk. Get medical attention if symptoms occur.

### 5 FIRE-FIGHTING MEASURES

**Extinguishing Media:** Extinguish with foam, carbon dioxide, dry powder or water fog.

**Unsuitable Extinguishing Media:** Not applicable.

**Special Fire Fighting Procedures:** Use standard firefighting procedures and consider the hazards of other involved materials.

**Unusual Fire & Explosion Hazards:** By heating and fire, harmful vapors/gases may be formed.

**Hazardous Combustion Products:** Carbon Dioxide, Carbon Monoxide, Esters

**Protective Measures:** Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

### 6 ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** Avoid contact with eyes and prolonged skin contact. Wear necessary protective equipment. See Section 8 of the MSDS for Personal Protective Equipment.
Spill Cleanup Methods: Shovel up and place in a container for salvage or disposal. For waste disposal, see section 13 of the MSDS.

Environmental Precautions: No specific precautions.

7 HANDLING AND STORAGE

Handling: All handling to take place in well-ventilated area. Avoid inhalation of dust and contact with skin and eyes. Do not breathe fumes produced at elevated temperatures. Periodically clean work and storage areas to prevent dust accumulation. Observe good industrial hygiene practices.

Storage: Store in a cool, dry place out of direct sunlight. Keep container closed.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: No exposure limits noted for ingredient(s). However ACGIH have limits for “nuisance dusts” which is TLV–TWA = 10mg/m3.

Engineering Controls: Provide adequate ventilation. If dust or fumes are generated during use, use local exhaust in combination with general ventilation as necessary to remove fumes/dust from the workers' breathing zone and to ensure exposures do not exceed applicable limits.

Respiratory Protection: During dust-raising work or inhalation of hot/molten material: Use a NIOSH-approved respirator (See 29 CRF 1910.134, respiratory protection standard).

Eye Protection: Use tight fitting goggles if dust is generated.

Hand Protection: Gloves are recommended for prolonged use.

Skin Protection: It is a good industrial hygiene practice to minimize skin contact. Thermally protective, chemical resistant apron and long sleeves are recommended when volume of hot material is significant.

Hygiene Measures: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental Exposure Controls: Environmental manager must be informed of all major spillages.
